**FREE GIFT... for Attendees**

All who attend “Beyond 2005 — Preparing for Rust is a Must” will receive a FREE Soybean Rust Wheel Chart that details soybean plant growth stages and treatment effectiveness at the different stages.

Extreme heat and drought in much of the Midwest in 2005 limited the spread of soybean rust to the southern United States. Chances are it will be a different story in 2006. Soybean rust is still a serious threat to all U.S. soybean growing areas.
